EDUCATION

Master of Science in Computer Science | San Diego State University — *Expected May 2026* | **GPA: 3.73**

Relevant Coursework: Advanced Web frameworks, Algorithms, Advanced DBMS, Machine Learning, Advanced OOP

Bachelor of Engineering in Computer Engineering | Gujarat Technological University, India — *June 2024* | **GPA: 3.91**

Relevant Coursework: Data Structures, Web development, Internet of Things, Operating Systems

PROFESSIONAL EXPERIENCE

Web Developer Intern | Reborn Tech LLC, Los Angeles, CA (Remote) | *Aug 2025 – Oct 2025*

- Built a Chrome Extension (**MV3**) with **React** and **TypeScript** that automated form-filling in job applications, improving field-fill accuracy by **35%**.
- Implemented ATS-specific field mapping and multi-entry logic, reducing errors on complex React-driven portals by **30%**.
- Boosted EzCareer's platform with **Playwright** automation for scraping official career pages, delivering real-time job postings to users.

Graduate Assistant | San Diego State University, San Diego, CA | *Sep 2024 – Present*

- Led validation and analysis of datasets from **8M+ companies** using **Excel**, **Python**, and **web scraping**, improving data quality for research.
- Automated fuzzy-matching workflows with **machine learning** and scalable preprocessing, boosting data comparison efficiency by **40%**.

Software Developer Intern | Mokshit Infotech, Surat, India | *Jan 2024 – Apr 2024*

- Streamlined backend with **.NET Core** and **RESTful APIs**, improving processing speed by **25%** and enabling support for **1,000+ organizations**.
- Enhanced user experience across event scheduling, curriculum management, and student enrollment, increasing adoption by **20%**.
- Delivered scalable features in Agile sprints by collaborating with cross-functional teams using **Git**, **Jira** and **Postman**.

React.js Developer Intern | Tatvasoft, Ahmedabad, India | *Jul 2023 – Aug 2023*

- Developed a responsive Book Store application with **React.js**, adding shopping cart, secure login, and checkout features for **500+ users**.
- Improved UI/UX and user engagement by **15%** through iterative design enhancements and new feature development.
- Contributed to Agile sprints by analyzing user feedback, conducting research, and delivering functionality improvements.

PROJECTS

PackFoodReady2Go

- Created a **full-stack** web platform for **250+ products** with categorization, cart management, and a real-time admin panel.
- Architected a backend using **.NET MVC**, **C#**, **Repository Pattern**, and **SQL**, integrated with **Stripe** to support **100+** weekly transactions.
- Improved product update efficiency by **30%** through optimized backend logic and a responsive frontend crafted with **JavaScript**, **HTML/CSS**, and **Bootstrap**.

React Portfolio Website

- Engineered a responsive portfolio with **React.js** and **Tailwind CSS**, enhanced for accessibility and cross-device performance.
- Integrated **Framer Motion** animations, boosting user engagement by **30%** through smooth interactive UI.
- Enabled deployment with **GitHub Actions** and **Vercel**, enabling real-time CI/CD and seamless updates.

Digital Vehicle Maintenance

- Constructed an **Android** application for real-time vehicle servicing and booking, delivering a **25%** improvement in booking.
- Designed a responsive frontend with Android, **HTML**, and **CSS**, improving user navigation and overall usability.
- Programmed backend workflows in **PHP** with **Firebase**, supporting **50+** concurrent **transactions**.

TECHNICAL SKILLS

- Full-Stack Development:** React.js, .NET Core, C#, Node.js, MVC, Web API, RESTful APIs, Git, GitHub
- Frontend:** HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Bootstrap, Framer Motion, Chrome Extension (MV3), JSON
- Backend & Databases:** SQL, MySQL, Firebase, Repository Pattern, RabbitMQ, PHP
- Tools & Workflow:** Postman, JIRA, Webpack, Chrome DevTools, Vercel, Android Studio, Excel, Power BI, Jupyter, Pandas, NumPy, Matplotlib, CI/CD (GitHub Actions), Agile (Scrum), Java, Python
